MAHESH SHINDE *React JS Developer*

28mahesh7@gmail.com +91 8087497574 Pune, India linkedin.com/in/maheshshh/

SUMMARY

Senior Front end Developer with 5+ years of experience specializing in React.js. Strong expertise in UI/UX implementation, API integration, Redux state management, performance optimization, and responsive design. Currently working in the Investment Banking domain, delivering production-ready solutions in Agile scrum environments through close collaboration with cross-functional teams.

WORK EXPERIENCE

Senior Analyst 09/2024 – Present | Pune, India
Northern Trust

- Owned end-to-end API migration from legacy to new services across multiple UI modules without impacting user experience.
- Optimized React component rendering, reducing load time.
- Built and maintained a reusable React component library standardizing UI patterns across multiple teams.
- Worked within a shared mono-repo codebase managing cross-package dependencies.
- Collaborated with senior stakeholders and cross-functional teams to align technical decisions with business requirements.
- Integrated REST APIs with optimized data-fetching strategies to minimize redundant calls and improve application performance.

Associate 10/2021 – 09/2024 | Pune, India
Cognizant Technology Solutions

- Worked on single codebase application supporting multiple global tenants, using feature flags to customize user experience across markets.
- Developed responsive, mobile-first UI components and improved cross-browser compatibility.
- Wrote unit test cases using Jest to validate component logic and reduce production defects.
- Leveraged AI-assisted tools (GitHub Copilot) to accelerate development and improve code quality.

SKILLS

Frontend (Web & Mobile)
